urged Government for import of 20,000 tonnes of natural rubber through State Trading Corporation for small scale units in the country;

(b) if so, the details thereof, and the details about indigenous rubber production in tonnes; and

(c) whether Govemment have taken measures to control artificial shortage of rubber and high prices?

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY (SHRI JAIRAM RAMESH): (a) to (c) As the production of natural rubberduring 2005-06 exceeded the domestic consumption, there was no shortage of natural rubber in the country. The production of Natural Rubber was 803,230 tonnes (approx.) in 2005-06.

As the orice of Natural Rubber in the international market is much higher thati the domestic price, the request of All India Rubber Industries Association for import of NR through State Trading Corporation did not appear to be feasible proposition.

The increase in rubber prices in India is on account of increased prices in the international market. However, the price increase in the domestic market has been less as compared to the international market.
